easi-scan and **BCF Universal Goggles (BUGs)**

Please call or email to arrange for a demonstration:

6—320 W.T. Hill Blvd. S
Lethbridge, AB, T1J 4W9

403-328-1844

Email: abronson@biochecklabs.com

Or sflegel@biochecklabs.com

APPLICATIONS

Cattle: Fertility, Pregnancy

Equine: Fertility, Tendon

Deer: Fertility, Pregnancy

Fish: Sexing

BENEFITS

Easy to use: Easi-Scan is quick and simple to use with its four-button system, on-screen display menu and four application presets.

Easy to view: With three different viewing options (goggles, wireless monitor and a wrist display), and less cables to deal with, you don't need to bend or twist to see a high quality ultrasound image.

Easy environment: The farm can be a dangerous environment so Easi-Scan has been designed to put you in control of the situation, leaving your hands free and yourself mobile. Put your BUGS goggles on and see both the animal surroundings and a high quality ultrasound image by a simple movement of your eyes.

Easy powered system: With its internal battery, choice of auxiliary batteries, chargeable carry case and separate charge adaptor, Easi-Scan lets you scan anywhere, anytime. Simple as that!

Easily faster: The Easi-Scan is also quick to work with. Its fast frame rate, which lets you move the probe quicker without losing image quality and its easy and friendly system, means more animal pregnancy examinations in less time. The fact that it's lightweight, small and splash proof means that it's quicker and easier to carry about and clean – speeding the entire process up, from start to finish.

Easy reliable scanner: Robust, hardwearing and splash proof resistant on the outside, with ultra-reliable animal ultrasound technology on the inside, Easi-Scan offers something of real value – peace of mind. It won't let you down because Easi-Scan performs equally well in hot and cold temperatures.

Trusted Brand: BCF Technology is the leading brand behind Easi-Scan. With distributors in more than 30 countries worldwide, unparalleled customer service and unrivalled hands-on clinical training you couldn't wish for better support.

pregnancy, later pregnancy, detail.

Storage: Up to 100 images can be stored and annotated. Easy USB image transfer to your computer.

Manufacturer: BCF Technology.

CARRYING CASE

STAND ALONE CHARGER
